

Sales Engineer:

- **Job Description:**

We are seeking a technical sales person to handle the responsibility of managing an existing customer base and increasing activity in South America. Our candidates must be experienced in mechanical equipment. Preferably in the chemical processing field. Duties include design and costing, evaluating application information, matching equipment designed and manufactured by our firm and completing the process of quotation and follow-up. This is a highly detailed position requiring thoroughness and accuracy and a true passion for the process of manufacturing. We pay a base salary and yearly bonus. Some travel is required. Spanish speaking skills are mandatory. Thorough use in speaking and writing of the English language is also mandatory. Candidates must have a minimum of 5 years in a technical sales liaison or sales position.

- **Company Description:**

Our company is an industrial manufacturer of processing equipment. The company is family owned and over 65 years old. We design and build industrial equipment that is installed around the world. We serve industries like construction, adhesives, composites, food and some personal care products.

Please contact Eunice Leung, President of LASCT for more information about this position.
