

## ***DIRECTOR OF OPERATIONS***

Merlex Stucco, an established and growing family-owned stucco manufacturer, seeks a ***Director of Operations*** to manage 5 plants in Southern California. With offices in Pacoima, Banning, and 3 facilities in Orange, we supply the Southern California construction industry better than anyone. Our product lines span cement-based stucco, gypsum joint treatment products, and imported Italian Venetian plasters. Throughout our 45-year history, Merlex has maintained a reputation for top-quality products, extra-mile service, and that extra attention you can only get from a family business.

As Director of Operations, you will report to the Vice President and perform a wide range of management functions, including supervision of approximately 20 production employees in the production, loading, color lab, and maintenance departments. You will be out in the manufacturing environment, not behind a desk pushing papers, helping take our company to the next level.

This person needs to have the following qualifications:

- Minimum 2 years manufacturing experience
- Love of general management an absolute requirement
- Engineering or MBA degree a plus
- Excellent people skills and integrity
- Spanish and English speaking a big plus
- Detail-orientation
- Ability to manage self and push projects further with minimal supervision
- Keen analytical skills
- Knowledge of the building industry a plus

If you want to join a solid manufacturing business and put your skills to work, this could be the job for you. Salary is \$90,000 plus bonus. We offer full benefits, including fully paid healthcare and a generous 401-K retirement plan. We are a 45-year-old family business, still run with the best interests of the customer and employees in mind. Our culture is positive, fun-loving, and focused on continuous improvement.

Interested applicants should email their resume to Nick Brown at [nick@merlex.com](mailto:nick@merlex.com).
